

# Project Testament

## Final Project and Presentation

### About this Document

Fill out this document and turn it in as part of your Final Project and Presentation submission. You will most likely want to print, sign, and scan this document, but you may use an image editor if you are able to sign your name with a digital pen.

Carefully complete each section. If this document isn't correctly filled out and submitted with the assignment, **the assignment grade will incur heavy penalties.**

### Basic Information

<b>Course Number</b> (e.g., CPSC-120)	CPSC 411A
<b>Course Section</b> (e.g., 02)	04
<b>Your full name(s)</b> (use the name associated with our school)	Atharva Karanje Siddharth Mohite Shivansh Vijay Nathani
<b>Github Repository URL</b>	<a href="https://github.com/">https://github.com/</a> <a href="https://github.com/2022-fall-csuf-cpsc-411a/final-project-and-presentation-j18-final-project">https://github.com/2022-fall-csuf-cpsc-411a/final-project-and-presentation-j18-final-project</a>

## Items Completed

Clearly mark one of the check boxes in each row to confirm whether each of the following items have been completed. Carefully check each row for accuracy; Each incorrectly marked row may carry a **huge penalty on this assignment's grade and be subject to our institution's academic dishonesty policies.**

Additionally, add a **typed** description of where each item can be found in your app, and how to get there easily.

Completed	Not Completed	Item
<input checked="" type="checkbox"/>	<input type="checkbox"/>	The signed and completed version of this document is present in the repo as a multi-page PDF, not several image files.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Callbacks  <b>How to find:</b> In sign up activity and fragments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Logging  <b>How to find:</b> Under most of the classes try looking for "LOG.d"
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Layouts  <b>How to find:</b> Under resources we have layouts and they use constraint layouts
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Resources  <b>How to find:</b> We have image button in community tab and main landing page after login
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Resources (extra credit)  <b>How to find:</b> The splash screen has a playable gif and sound

Completed	Not Completed	Item
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Resource qualifiers  <b>How to find:</b> We have translations under strings, we have qualifiers on orientation and wildcard for images for larger devices in drawable
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> Persistence  <b>How to find:</b>  We have use sqllite for storing recent searches.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> UI Flexibility  <b>How to find:</b> Under layouts we have fragments and we have reused them in different orientations
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<b>Requirement:</b> RESTful Interactivity  <b>How to find:</b> We are fetching data from rapid api but we dont have post api

## Additional Comments

Write any additional comments for your submission here.

## Signature

Sign your name to attest the following statement. Only students signing below will receive credit for the assignment; If this is a group assignment, make sure everyone signs the same document.
